¹ These are examples of categories to show what fees court reporters in other state and federal courts charge. Other issues to consider when considering these categories: 1) How will establishing rates for all of these categories impact the freelance court reporter negotiating for fees outside the Nebraska Judicial Branch (e.g., Workers' Compensation Court, grand jury transcripts, other expedited transcripts); 2) Should there be a higher fee for a death penalty BOE/eBOE; and 3) Should there be a higher fee for a transcript in those circumstances when the audio recording is poor?
